

Canister Vacuum Cleaner for Household Cleaning

This canister vacuum cleaner is designed for household cleaning tasks. It features a hose attachment point, control buttons, and large wheels for maneuverability.

Product Overview

High-Efficiency Household Cleaning

The VCL-608 canister vacuum cleaner is engineered for demanding household cleaning tasks with a powerful 1200W-1800W motor. It features a robust double-cyclone system paired with a 5-stage filtration process to ensure optimal air quality and suction performance. Designed for convenience, the unit includes automatic cord rewinding, a 360-degree swivel hose, and a quiet operation design.

Technical Specifications

Power Range	1200W - 1800W
Voltage	240 V

Performance Metrics

Suction Pressure

17.5 Kpa

Vacuum Pressure

Noise Level	78 dB
-------------	-------

Design Features

Dust Capacity	1.9 L
Cord Length	4.8 m
Key Functionalities	Double HEPA filter, Soft start, Block fail-safe, Automatic cord rewinder, 5-stage filtration, 360° hose rotation
