

Canister Vacuum Cleaner for Household Use

This is a canister vacuum cleaner designed for household use. Its compact design includes a flexible hose, power control dial, and foot-operated on/off switch.

Product Overview

Efficiency Meets Versatility

The VCH-105 canister vacuum cleaner is a powerful household solution engineered for effective cleaning across various floor types. With a high-efficiency motor and convenient features like an automatic cord rewriter and stepless speed regulation, it streamlines your daily maintenance tasks. Its compact design includes vertical and horizontal parking positions for efficient storage in small spaces.
