

Canister Vacuum Cleaner with Transparent Dustbin

This canister vacuum cleaner features a transparent dustbin, allowing easy monitoring of fill levels. Its design incorporates large wheels and a carrying handle for enhanced portability.

Product Overview

High-Efficiency Canister Vacuum

The VCL-628 is a powerful canister vacuum cleaner engineered for professional-grade cleaning performance. Featuring a versatile 1200W-2200W power range and advanced 5-stage filtration with double HEPA filters, it ensures superior dust capture and cleaner air exhaust. Its ergonomic design includes a transparent dustbin for easy monitoring, 360-degree hose rotation, and an automatic cord rewinder for seamless operation.

Technical Specifications

Power Input

1200 W

Minimum Power

2200 W

Maximum Power

Vacuum Pressure	17.5 Kpa
Operating Voltage	220-240V
Noise Level	78 dB(A)

Design and Capacity

Dustbin Capacity	3 L
Cable Length	6.5 m

Features

Core Features

- Cyclone technology
- Double HEPA filter
- Soft start motor
- Block fail-safe system
- Automatic cord rewinder
- 5-stage filtration
- Low noise design
- 360-degree hose rotation
