

Cantilever Metal Tool Box

This sturdy metal tool box is designed for storing and transporting tools. The cantilever design features multiple trays that extend when opened, allowing easy access to the contents.

Product Overview

Professional Tool Storage Solution

This cantilever metal tool box is engineered for durability and efficient organization in demanding work environments. Featuring a high-quality powder coating finish, the unit is built to withstand heavy use while protecting your valuable equipment. The smart cantilever design allows multiple trays to extend outward upon opening, ensuring that your essential tools are always accessible and neatly categorized for quick retrieval.

Technical Specifications
