## Overview

### Professional Coffee & Frothing Solution

This versatile combination appliance pairs a high-pressure capsule coffee machine with an integrated milk frother, perfect for office or home environments. The coffee system utilizes a 19-bar pump and auto-ejection technology to deliver consistent espresso shots with ease. Complementing the coffee unit, the dedicated milk frother provides dual-functionality for heating and frothing, allowing for the quick preparation of lattes and cappuccinos.

## Coffee Machine

### Brewing Options

- Short Espresso (approx. 40ml)
- Long Espresso (approx. 70ml)

Power Rating	1200 W
Pump Pressure	19 bar
