Overview

High-Performance Brake Rotors

These high-quality car brake rotors are engineered for optimal braking performance and safety. Designed to meet or exceed OEM specifications, they feature a durable construction that ensures long-lasting reliability. The design includes advanced features for improved heat dissipation and reduced brake fade, making them a dependable choice for a wide range of vehicle models.

Technical Specifications

Product Name	Brake disk rotor brake pads and discs
Casting Standard	HT250 or American standard G3000
Material Composition	100% Asbestos-free

Quality & Compliance

Inspection

- 100% crucial dimension inspection

Quality Standard	100% qualification, all dimensions are 100% OEM
------------------	---

Commercial Terms

Minimum Order Quantity	50 pcs/item
------------------------	-------------

Key Advantages

Performance Benefits

100 % OEM Dimension Match	100 % Asbestos Free
