Product Overview

Versatile Car Digital Media Player

This car digital media player offers a comprehensive audio solution for vehicles, supporting multiple playback formats including MP3 via USB, SD, and MMC cards. Designed for ease of use, it features an electronic tuning FM radio with auto-search capabilities and a clear LCD or LED display. With additional conveniences like a real-time clock, remote control operation, and rotary volume control, it provides a user-friendly and reliable upgrade for in-car entertainment.
