

# Car Entertainment System with Navigation

This car entertainment system has built-in navigation and a color touch screen. It supports Bluetooth hands-free calling, USB playback, and AM/FM radio.

## Overview

### Advanced Car Entertainment & Navigation System

This comprehensive car entertainment system integrates high-performance navigation, multimedia playback, and advanced vehicle control features into a single, intuitive interface. Designed for seamless operation, it supports full touch-screen control, handwriting input, and hands-free Bluetooth connectivity for enhanced safety. With support for diverse media formats, AM/FM radio, and automatic reversing camera integration, this system upgrades vehicle functionality while maintaining original steering wheel control compatibility.

## Core Features
