Car Entertainment System with Touch-screen and Bluetooth

This car entertainment system features a color screen with a fully touch-controlled operating system. It supports automatic reversing camera functionality and AV input, with customizable automatic light-sensing features.

Overview

Advanced Car Entertainment System

Upgrade your vehicle's dashboard with this versatile car entertainment system, featuring a responsive, full-touch color screen interface. Designed for seamless integration, the system supports built-in GPS navigation with handwriting input, hands-free Bluetooth calling, and a high-sensitivity AM/FM radio receiver. It offers broad compatibility with numerous car models, utilizing specific frames and wiring for a professional, factory-style installation.
