Car Entertainment System with Touch-screen and Navigation

This car entertainment system features a color screen with touch-sensitive controls and GPS navigation. It supports automatic reverse camera activation, AV input, and customizable light-sensing.

Overview

Advanced Car Entertainment System

Upgrade your vehicle with this comprehensive entertainment system featuring a vibrant color touchscreen interface. Designed for seamless integration, it combines GPS navigation, high-sensitivity AM/FM radio, and hands-free Bluetooth connectivity into one intuitive unit. With support for multiple media formats and automatic reverse camera activation, this system enhances both safety and convenience on the road.
