Car Entertainment System with Touch-screen

This car entertainment system features a color screen with full touch operation. It supports automatic reversing camera, AV input, and automatic light sensing. The system is compatible with dozens of car models and includes original car-style special panels for easy installation.

Overview

Advanced In-Car Entertainment & Navigation

This comprehensive car entertainment system features a high-definition TFT touchscreen interface designed for seamless integration with a wide variety of vehicle models. It combines essential driving tools like GPS navigation and automatic reversing camera support with premium multimedia capabilities including AM/FM radio, Bluetooth hands-free calling, and USB media playback. Engineered for ease of use, the system supports handwriting input and retains original steering wheel control functionality for a safer driving experience.

Key Features

Core Functionality	GPS Navigation, Bluetooth Hands-free, Reversing Camera Support, AM/FM Radio, Handwriting Input, Touchscreen Interface

Multimedia

Supported Media Formats

- MP3
- MPEG4
- WMA
- JPEG
