

Car Negative Ion Air Purifier with Aromatherapy

This compact air purifier releases negative ions to remove dust, pollen, smoke, and other pollutants inside a car. It features a nano silver filter and aromatherapy function.

Overview

Clean Air on the Go

This car air purifier combines advanced multi-stage filtration with a compact, stylish design tailored for vehicle interiors. It effectively removes particulate matter, smoke, bacteria, and viruses, ensuring a healthier environment for all passengers. Beyond air purification, the device features integrated aromatherapy capabilities, a soft blue ambient light, and a built-in compass for added convenience during your travels.
