

Car Polishing Wool Pad

This washing wool pad is designed for car polishing applications. It provides a soft and effective surface for applying polishes and waxes, helping to achieve a smooth and glossy finish.

Product Overview

Professional Car Polishing Wool Pad

This high-quality wool polishing pad is engineered for optimal automotive detailing and paint correction tasks. Constructed from premium, durable wool fibers, it provides a consistent surface for the effective application of polishes and waxes to achieve a professional glossy finish. Its ergonomic design ensures ease of handling and precise control during use with either rotary or dual-action polishers.

Technical Specifications

Compatible Tools

- Rotary Polishers
- Dual-Action Polishers

Key Features

- Ergonomic design
- Wear-resistant construction
- High-gloss finishing capability

Primary Applications

Automotive Detailing, Paint Correction, Polishing, Waxing

Material Composition

High-quality natural and synthetic fiber blend wool
