Product Overview

Professional Grit Separation

The Grit Guard Insert is a simple and effective way to protect your car's paint during the wash process. By sitting at the bottom of your wash bucket, it separates grit and dirt from your wash mitt, preventing harmful particles from being transferred back onto the vehicle's surface. Its radial design and four-quadrant structure calm the wash water, ensuring contaminants remain trapped at the bottom.

Technical Specifications

Diameter	26.5 cm
Material	ABS

Compatibility
