

Car Wash Mitts with Mesh Scrubber

These car wash mitts are designed for efficient and safe car washing. One mitt includes a black mesh panel for scrubbing tougher stains or bug residue.

Product Overview

Professional Detailing Mitts

These car wash mitts are engineered for efficient and safe vehicle maintenance. Featuring a highly absorbent, soft material, they gently lift dirt and grime without risking surface scratches. The integrated mesh panel provides an effective solution for scrubbing stubborn stains or bug residue, making these mitts an essential tool for automotive detailing.
