Product Overview

High-Performance Masonry Drilling

This carbide-tipped masonry drill bit is engineered for demanding applications in brick, concrete, and stone. Featuring a robust 40CR steel body and a high-quality YG8 carbide blade, it offers exceptional durability and cutting efficiency. The specialized spiral flute design promotes effective dust extraction, reducing friction for faster drilling speeds and an extended tool lifespan.

Technical Specifications

Drill Compatibility

Rotary Drill • Impact Drill • Hammer Mode

Body Material	40CR Steel
Blade Material	Domestic YG8 Carbide
Compatible Materials	Brick, Concrete, Stone, Block
