

# Carbon Fiber Road Bicycle Frame

This high-performance bicycle frame is constructed from carbon fiber. It features integrated water bottle cage mounts and a lightweight design.

## Product Overview

### High-Performance Carbon Fiber Design

This carbon fiber road bicycle frame is engineered for riders seeking optimal speed, agility, and durability. Featuring a lightweight construction and a distinctive blue and black gradient finish, the frame combines aesthetic appeal with high-performance functionality. Integrated water bottle cage mounts ensure convenience for long-distance training or competitive racing.

## Technical Specifications

### Integrated Features

- Integrated water bottle cage mounts
- Lightweight construction
- Aerodynamic design

Material	Carbon Fiber
Design Finish	Carbon Fiber, Blue-Black Gradient, Flame Graphics
