

Carbon Steel Hole Saw Set

This hole saw set is constructed from carbon steel. It is designed for creating circular cuts in wood and similar materials and includes multiple sizes for versatility.

Product Overview

Carbon Steel Hole Saw Set

This professional-grade hole saw set is engineered from durable carbon steel, specifically designed for precision circular cutting in wood and similar soft materials. Each piece features aggressive, toothed edges to ensure efficient material removal and clean, accurate holes. The set includes multiple diameters to accommodate various woodworking applications, making it a versatile addition to any workshop tool collection.

Technical Specifications

Design Features

- Toothed edges for efficient cutting
- Central mounting hole for drill compatibility
- Multi-diameter set configuration

Material

Carbon Steel

Application

Woodworking, Circular Cutting, Drilling
