

Carbon Steel Mini Loaf Pan with 8 Cavities

This mini loaf pan features a non-stick coating for easy release and cleanup. Constructed from durable carbon steel, it ensures even heat distribution for perfectly baked mini loaves, brownies, or cakes.

Product Overview

Professional Mini Loaf Pan

This durable carbon steel mini loaf pan is engineered for consistent, high-quality baking results in professional kitchens. Featuring 8 individual cavities, it is perfectly suited for creating uniform mini loaves, brownies, or cakes. The robust construction ensures even heat distribution, while the non-stick coating facilitates easy release and efficient cleanup.
