

# Carbonated Beverage Filling Machine

This automatic filling machine is designed for carbonated beverages. It features stainless steel construction with enclosed filling chambers for hygiene and safety.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Beverage Packaging

The CGFD series washing, filling, and capping machine is a highly efficient, automatic liquid packaging solution designed specifically for the beverage industry. Incorporating advanced gas filling technology, it ensures precise and consistent performance for carbonated products. This robust system is engineered for high-volume production, featuring enclosed chambers and stainless steel construction to meet stringent hygiene and safety standards.

## Technical Specifications

### Key Features

- Rotary filling platform
- Enclosed filling chambers
- Integrated control panel
- Adjustable filling parameters
- Protective transparent enclosure

### Application Suitability

Carbonated Beverages • High-Volume Production • Various Bottle Sizes

Machine Type	Automatic Washing, Filling, and Capping Machine
Construction Material	Stainless Steel
Filling Heads	16
Filling Technology	Advanced Gas Filling
