

Carburetor and Choke Cleaner Aerosol

This carburetor and choke cleaner quickly and effectively removes gum, varnish, carbon deposits, and other contaminants. It improves engine performance by ensuring proper fuel-air mixture and smooth operation.

Product Overview

High-Performance Cleaning Solution

This powerful solvent blend is specifically engineered to quickly and effectively dissolve gum, varnish, and carbon deposits. Designed for optimal maintenance, it restores proper fuel-air mixture and ensures smooth engine operation by thoroughly cleaning carburettor and choke mechanisms. The aerosol delivery system allows for easy, precise application, making it an essential tool for automotive maintenance professionals.

Technical Specifications

Can Capacity	450 ml
Application Method	Aerosol spray

Performance Features

Compatibility

- All types of carburettors
- Choke mechanisms
- Components with electronic sensors

Removes	Gum, Varnish, Carbon Deposits, Contaminants
