

Carburetor Connection Pipe Hose for Zongshen NC250 Engines

This carburetor connection pipe hose is designed for Zongshen NC250 engines. It ensures a secure connection between the carburetor and the engine.

Product Overview

High-quality carburetor connection pipe hose designed for reliable engine performance and durability.

Engine Performance Component

This carburetor connection pipe hose is precision-engineered for Zongshen NC250 engines, ensuring a secure and leak-free interface between the carburetor and the engine intake. Designed for durability and optimal fuel efficiency, it is an essential component for maintaining reliable engine performance. It serves as a direct replacement part for various 250cc motorcycle models, offering robust resistance to wear and tear under demanding riding conditions.

Compatibility

Compatible Vehicles

- RX3
- KAYO
- Motoland
- BSE
- Megelli
- Asiawing 250cc

Engine Models

Zongshen NC250, ZS177MM, NC450, ZS194MQ
