Product Overview

Heavy-Duty Cargo Lashing Belt

This cargo lashing belt is engineered for secure load transportation in logistics and trucking applications. It features a robust ratchet mechanism that allows for precise tensioning and reliable locking, ensuring your cargo remains stable during transit. Constructed from high-strength polyester webbing, the system is designed to withstand demanding environments while providing exceptional durability and resistance to wear.

Technical Specifications

Load Capacity (LC)

2000 kg

Load Capacity

Operating Temperature	-40°C to 100°C
Standard Length	8 m
Custom Length Range	1m to 50m
Available Fittings	Hook, Triangle Ring

Safety & Usage Guidelines

Safety Warnings
