

# Cargo Lashing Strap with Ratchet

This cargo lashing strap utilizes a ratchet mechanism to secure loads. It is ideal for securing cargo during transportation.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Cargo Lashing

This high-strength cargo lashing strap is engineered for reliable load securement across road, rail, sea, and air transportation. Manufactured from 100% polyester, it offers exceptional wear resistance, low elongation, and flexibility for safe handling. Each unit is GS tested and approved by TÜV, ensuring compliance with international safety standards.

## Technical Standards

Material	100% Polyester
Standards & Certifications	DIN 60060, EN12195-2, GS Tested, TÜV Approved

## Performance Features

### Key Properties

- Low elongation
- High wear resistance
- Soft and flexible handling
- Long working life

### Suitable Applications

Road Transport • Rail Transport • Sea Freight • Air Freight

## Configuration Options

### Available Configurations

Feature	Availability
Ratchet Mechanisms	Various capacities available
End Fittings	Multiple configurations available
