Product Overview

Heavy-Duty Cargo Security

These high-strength cargo lashing straps are engineered for reliable load restraint during transportation, making them essential for trucking, logistics, and industrial applications. Featuring a durable plastic handle ratchet mechanism, the system allows for easy tensioning and secure fastening. The straps are equipped with double J hooks, ensuring a stable attachment to various anchor points to prevent load shifting during transit.

Technical Standards

Certifications

ISO 9001 • ABS • DNV • CCS

Compliance Standards

ISO487, EN1492:2000, EN12195:200, ASME B30.9-2003, CE, GS, TÜV Rheinland

Product Features

Key Features

- Durable plastic handle ratchet mechanism
- Double J hook attachment points
- High-strength polyester webbing construction
- Abrasion-resistant material
- Available in multiple color options

Ideal Applications

Trucking, Logistics, Industrial Cargo Handling
