

Cargo Lashing Turnbuckle with Jaw and Eye

This heavy-duty turnbuckle is designed for securing cargo and equipment. The adjustable design allows for precise tensioning and securement.

Product Overview

Heavy-Duty Deck Lashing Turnbuckle

This high-performance turnbuckle is engineered for demanding cargo lashing and equipment securement tasks. Featuring a robust steel construction, it provides the strength and durability required for marine, industrial, and transportation environments. The adjustable design, incorporating both jaw and eye end fittings, allows for precise tensioning to ensure cargo remains stable during transit.

Technical Specifications

Size	1-1/4 inch x 18
Thread Diameter	M32

Performance Metrics

Working Load Limit (WLL)

5 T
WLL

Product Weight	18 kg
