

Cargo Transport Tricycle

This tricycle is designed for transporting cargo. It features a large, enclosed cargo box and a motorcycle-style front end.

Product Overview

Heavy-Duty Cargo Transport

The XLM60 is a robust cargo transport tricycle designed for reliable hauling in professional settings. Featuring an enclosed rear cargo box and a motorcycle-style front end, this vehicle combines maneuverability with significant storage capacity. Its reinforced frame and heavy-duty rear suspension system ensure stability and durability when navigating complex work environments.
