

Cargo Transport Tricycle

This heavy-duty tricycle is designed for cargo transport, featuring a robust steel frame and dual-wheel rear axle. Equipped with a gasoline engine and manual transmission, it's ideal for industrial, agricultural, and commercial applications.

Product Overview

Robust Cargo Transport Solution

This heavy-duty tricycle is engineered for demanding industrial, agricultural, and commercial logistics. Built with a reinforced steel frame and a high-capacity cargo bed, it ensures reliable performance under significant weight. Equipped with an efficient gasoline engine and manual transmission, it offers the perfect balance of power and control for professional cargo transport needs.

Technical Specifications

Engine Type	Gasoline Engine
Transmission	Manual
Front Suspension	Motorcycle-style suspension
Frame Material	Robust steel

Design and Utility

Cargo Features	Large rectangular bed, Reinforced side panels, Dual-wheel rear axle
Seating	Ergonomic seat with backrest

Application Suitability

Ideal Applications

- Industrial logistics
- Agricultural transport
- Commercial cargo distribution
