

Cargo Transport Tricycle with Flatbed

This tricycle is designed for transporting cargo. It features a flatbed cargo area with railing and a robust frame.

Product Overview

Heavy-Duty Cargo Transport

The MTR150ZH-A is a robust, motorized cargo tricycle engineered for reliable transport in industrial and warehouse environments. Designed with a stable dual-rear-wheel configuration and a spacious flatbed featuring side railings, it ensures safe and efficient movement of goods. This heavy-duty vehicle combines maneuverability with high-capacity cargo storage to streamline onsite logistics.
