

Cargo Transport Tricycle with Internal Combustion Engine

This is a tricycle designed for cargo transport. It features a robust frame, a spacious cargo bed at the rear with railing, and a single front wheel with a motorcycle-style front suspension.

Product Overview

Robust Cargo Transport Solution

This internal combustion engine tricycle is engineered for heavy-duty cargo transport in demanding environments. Featuring a reinforced frame and a spacious rear cargo bed with secure railing, it offers excellent utility for professional logistics. Its motorcycle-style front suspension ensures stability and maneuverability, making it a reliable choice for commercial applications.
