

Carnauba Paste Wax for Automotive Paint Protection

This carnauba paste wax provides a durable and protective coating for automotive paint. It enhances shine and offers water beading properties.

Product Overview

Professional Grade Paint Protection

This premium carnauba paste wax is specifically engineered to shield automotive paint from environmental hazards like acid rain, pollutants, and UV-induced oxidation. By forming a high-gloss, resilient resin protective film, it significantly enhances water beading and eases the removal of surface dirt. Ideal for vehicles frequently parked outdoors, this formula provides a deep, rich finish while maintaining long-term paint integrity.

Technical Specifications

Net Weight	312 g
Key Features	UV Protection, High Gloss Finish, Hydrophobic Properties, Pollution Resistance

Application Details

Performance Benefits

- Prevents acid rain erosion
- Resists high temperature oxidation
- Provides deep cleaning and paint reduction
- Excellent for outdoor vehicle storage
