

Carpeted 2-Way Passive Speaker Cabinet with Dual Subwoofers

This 2-way speaker cabinet features dual subwoofers and a piezo tweeter. The carpeted enclosure is designed for durability and reduced resonance.

Overview

High-Performance Passive Speaker Systems

These carpeted 2-way passive speaker cabinets are engineered for powerful audio reproduction in diverse environments. Featuring high-excursion dual subwoofers paired with responsive piezo tweeters, they deliver a balanced and dynamic sound profile. The robust construction and carpeted finish ensure durability during transport and setup, making them an ideal choice for professional sound reinforcement.

Technical Specifications

Model Comparison

Subwoofer Size	Max Power	Magnet Size	Dimensions (mm)
2x10"	1000W	30oz	340x330x860
2x12"	1200W	40oz	390x350x965
2x15"	1500W	40oz	460x475x1220

Universal Features

- 2-Way Passive Design
- Cloth Edge Paper Cone
- Frequency Response: 30-20000Hz
- Impedance: 8ohm
- Sensitivity: 90dB
