Overview

Automated Carton Liner Insertion

This fully-automatic bag inserting machine is engineered to streamline packaging operations by efficiently lining cartons with polybags. It handles the entire process from cutting and sealing film from roll stock to inserting, opening, and cuffing the bag over the carton top flaps. Designed to reduce labor and material costs, it offers high efficiency and simple operation for various industrial applications.

Performance Metrics

Inserting Capacity

6 cartons/min
Standard Capacity

12 cartons/min
High-Speed Option

Technical Specifications

Film Width Range	460 mm
Maximum Film Width	840 mm
Power Supply	3 phase, 4.5 kW
Compressed Air Pressure	6 bar
Air Consumption	100 NL/min

Carton Compatibility

Carton Dimensions (L x W x H)	250-550 x 200-400 x 150-400 mm
Customization	Yes

Machine Physicals

Dimensions (L x W x H)

3322 x 2177 x 2350 mm

Key Features

Operational Benefits

- Fully-automatic bag insertion
- Reduces labor and material costs
- Simple to operate and adjust
- Integrated air-blowing for bag extension
- Compatible with roll stock film
