

Carton Sealing Machine

This carton sealing machine provides an efficient solution for automated carton sealing. It is designed for high-volume packaging, ensuring consistent and secure sealing of cartons in various sizes.

Overview

Super Deluxe Carton Sealing Solution

The Super Deluxe Carton Sealing Packing Machine is a robust and efficient system designed for high-volume automated packaging operations. It ensures consistent, secure sealing across various carton sizes, making it an ideal choice for food, beverage, pharmaceutical, and industrial sectors. The system includes advanced features like automatic carton size detection and programmable sealing parameters to optimize efficiency and minimize material waste.

System Integration

Integrated Components

- Carton sealing tape applicator
- High-resolution inkjet printer (date/batch coding)
- Automatic strapping system (dual PP bands)

Performance

Operational Metrics

2 count

PP Bands Applied

Key Machine Capabilities

Automatic size detection, Programmable sealing parameters, Continuous operation, High-speed conveyor

Safety & Construction

Safety Features

Emergency Stop • Protective Guards
