

Cast Iron Admiralty Anchor

This cast iron anchor is suitable for mooring vessels. It features a traditional design with a central shank, two arms ending in flukes, and a stock positioned perpendicular to the arms.

Product Overview

Cast Iron Admiralty Anchor

The Admiralty anchor is a classic, reliable design suitable for various maritime mooring applications. Constructed from durable cast iron, these anchors are built to withstand harsh marine environments. This product range is available in a wide variety of weights, from 50 kg up to 10,000 kg, and meets stringent international certification standards for safety and quality.
