

Cast Iron Agricultural Fluid Transfer Pump

This robust pump is designed for agricultural and industrial applications. Constructed from cast iron, it efficiently circulates fluids for drainage, irrigation, and fluid transfer tasks.

Overview

Robust Agricultural Fluid Transfer

This cast iron fluid transfer pump is engineered for reliability in demanding agricultural and industrial environments. Its durable construction ensures excellent longevity and resistance to corrosion, making it a dependable choice for fluid circulation tasks. Designed with versatility in mind, it features multiple mounting points and a standard hose barb connection for seamless integration into existing systems.

Technical Specifications

Installation Features

- Multiple mounting points for secure installation
- Hose barb connection for easy system integration

Design Benefits

Corrosion Resistant • Compact Design • Durable Construction

Material	Cast Iron
Suitable Applications	Agricultural, Industrial, Drainage, Irrigation, Fluid Transfer
