

Cast Iron Air Compressor Pump

This compressor pump is constructed from durable cast iron, ensuring longevity and reliable performance. It is designed for efficient air compression and features optimized cooling fins for effective heat dissipation.

Product Overview

High-Performance Cast Iron Compressor Pump

This 3HP compressor pump is constructed from durable cast iron, ensuring longevity and reliable performance for demanding industrial and commercial applications. Designed for efficient air compression, it features a robust build with optimized cooling fins for effective heat dissipation. The unit provides consistent pressure and airflow, with a sturdy base that ensures stability during operation.

Technical Specifications

Motor Power	3 HP
Number of Cylinders	2
Working Pressure	10 bar
Rotational Speed	1100 RPM
Air Displacement	335 L/min

Dimensions and Weight

Dimensions (LxWxH)	400 x 300 x 360 mm
Net Weight	19 kg

Key Features

Construction Material	Cast Iron, Optimized Cooling Fins
