Product Overview

Durable Cast Iron Pan Support

This high-quality cast iron pan support is designed specifically for gas cookers, offering a robust and stable surface for cookware. Engineered for longevity and heat resistance, the enameled grill finish ensures even heat distribution and makes cleaning straightforward. It serves as an ideal replacement or upgrade component, compatible with various gas cooker models to restore or enhance cooking performance.

Manufacturing Capabilities

Production Equipment Inventory

Machine Type	Quantity
Punch Machine	19
Drilling Machine	9
Cutting Machine	5
Hydraulic Deep Drawing Machine	4
Molding Machine	4
Automatic Welding Machine	4
Folding Machine	3

Quality Assurance

- Loading Capacity Test System

Product Features

Design Advantages

- Stable support for cookware
- Even heat distribution
- Easy to clean surface
- High-temperature resistance
