

Cast Iron Gas Stove Burner Grate

This durable cast iron burner grate is designed for gas stoves. Its circular shape includes four support arms to ensure stable cookware placement.

Product Overview

Durable Gas Stove Component

This cast iron burner grate is designed for reliable performance in gas stove applications. Featuring a circular shape with four evenly spaced support arms, it ensures stable placement for various cookware sizes. The robust construction is built to withstand heavy pots and pans while offering high-heat resistance for long-term durability.

Physical Characteristics

Material	Cast Iron
Shape	Circular
Support Arms	4

Features & Benefits

Key Features	High-heat resistant, Corrosion resistant, Heavy-duty, Easy to clean
Maintenance	Easy to clean and maintain

Application

Primary Use

Replacement Part • Gas Stove Component
