

Cast Iron T-Slotted Machine Bed Plates

These plates are made from high-strength cast iron GG20-GG30 (HT200-300). They are available in sizes ranging from 100mm*100mm to 3000mm*8000mm, with larger sizes available by drawing.

Product Overview

High-Precision Machine Bed Plates

These cast iron T-slotted floor plates are engineered for maximum rigidity and stability in demanding machining environments. Designed to facilitate precise setup and alignment, they are suitable for a wide range of applications including milling, boring, and large-scale machining centers. With customizable configurations and robust construction, these plates provide a reliable foundation for heavy-duty assembly and inspection processes.

Technical Specifications

Material	Cast Iron
Applications	Milling Machines, Boring Machines, Machining Centers, Assembly, Inspection

Size & Configuration

Large Plate Assembly Options

Length (mm)	Width (mm)
2000	2500
3000	3500
