

Cast Iron Water Pump with Pulley

This cast iron water pump is equipped with a pulley system for belt-driven operation. It features a flanged base that allows secure mounting and incorporates threaded ports for inlet and outlet connections.

Product Overview

Cast Iron Water Pump

This robust water pump is specifically engineered for diesel engine applications. Constructed from durable cast iron, it features a reliable belt-driven pulley system for seamless integration with external power sources. The unit is designed with a flanged base for secure mounting and includes multiple threaded ports to accommodate flexible inlet and outlet configurations.

Technical Specifications

Material	Cast Iron
Drive Type	Belt-driven pulley
Mounting	Flanged base
Surface Coating	Blue

Application

Engine Compatibility	Diesel Engine
