

# Cast Iron Worm Gearbox

This worm gearbox features a durable cast iron construction. It is engineered for robust power transmission and efficient speed reduction.

## Product Overview

### Industrial Worm Gearbox

This classic cast iron housed inch worm gear reducer is engineered for robust power transmission and efficient speed reduction. Designed for demanding industrial applications, it features precision components to ensure smooth operation and long-lasting reliability. Available in a wide range of sizes from 133 up to 600 to suit various mechanical requirements.

## Technical Details

### Available Sizes

- 133
- 600

### Measurement Standard

Inch

### Housing Material

Cast Iron

### Gear Type

Worm Gear
