Product Overview

Professional Networking Solutions

This range of communication cables includes high-performance UTP, FTP, and SFTP options designed to meet demanding networking standards from CAT5E up to CAT8. Engineered to minimize electromagnetic interference and signal degradation, these cables provide reliable connectivity for Ethernet, Fast Ethernet, Gigabit, and 10-Gigabit applications. They are suitable for both indoor residential and commercial infrastructure, offering a robust solution for diverse bandwidth requirements.

Standards & Compatibility

Shielding Configurations

UTP • FTP • SFTP

Supported Categories

CAT5E, CAT6, CAT6A, CAT7, CAT8

Technical Specifications

Typical Applications

- Ethernet
- Fast Ethernet
- Gigabit Ethernet
- 10-Gigabit Ethernet
- Voice and Video Transmission

Environmental Suitability

Indoor, Outdoor
