Product Overview

Professional Gigabit Connectivity

This high-performance CAT6 UTP patch cord is engineered for reliable, high-speed data transmission in diverse networking environments. Featuring robust RJ45 connectors, it ensures stable signal integrity and minimal interference for Gigabit Ethernet applications. Its durable construction makes it an ideal solution for connecting computers, routers, and switches in home, office, and data center infrastructures.

Technical Specifications

Key Performance Metrics

1 Gigabit
Ethernet Standard

Category	CAT6
Shielding Type	UTP (Unshielded Twisted Pair)
Connector Type	RJ45 8P8C

Application & Features

Use Environments

- Home Networks
- Office Infrastructure
- Data Centers

Compatible Devices	Computers, Routers, Switches, Network Devices
--------------------	---
