

Category 5 UTP Unshielded Twisted Pair Cable

This UTP unshielded twisted pair cable contains 4 pairs and meets Category 5 standards. Its unshielded design ensures flexibility and easy installation for networking applications.

Product Overview

Category 5 UTP Networking Solution

This Category 5 Unshielded Twisted Pair (UTP) cable is engineered for reliable data transmission in various networking environments. Featuring a four-pair twisted conductor design, it effectively minimizes electromagnetic interference while maintaining flexibility for easier installation. It is an ideal choice for structured cabling systems, Ethernet networks, and professional data communication setups.

Technical Specifications

Performance Category

Category 5

Cable Type	Unshielded Twisted Pair (UTP)
Conductor Configuration	8
Twisted Pairs	4
Key Features	Color-coded conductors, Flexible design, EMI interference reduction, Ethernet compatible
