

Category 6A Keystone Jack

Category 6A keystone jack for high-speed data transmission. It is designed for network cabling applications, supporting up to 10 Gigabit Ethernet.

Overview

High-Performance Connectivity

This Category 6A keystone jack is engineered for high-speed data transmission, supporting up to 10 Gigabit Ethernet for demanding network cabling applications. It features a convenient tool-less termination design, allowing for quick and efficient installation without specialized equipment. Built with durable materials, it is designed for reliability in patch panels, wall plates, and surface mount boxes.

Technical Specifications

Category	Cat 6A
Shielding	UTP (Unshielded Twisted Pair)
Termination	Toolless
Orientation	180 Degree

Applications

Compatible Hardware	Patch Panels, Wall Plates, Surface Mount Boxes
---------------------	--

Performance

Data Rate Support

10 Gbps
