

Category 6A Shielded Patch Panel

This patch panel is a high-performance connectivity solution designed for demanding network environments. It supports 10 Gigabit Ethernet applications and exceeds Category 6A standards, ensuring reliable and fast data transmission.

Product Overview

High-Performance Network Connectivity

This Category 6A patch panel is engineered for demanding network environments requiring high-speed data transmission. Supporting 10 Gigabit Ethernet applications, it exceeds standard performance requirements to ensure reliable connectivity. The shielded design minimizes electromagnetic interference and crosstalk, making it an ideal solution for data centers and enterprise networks.

Technical Specifications

Category

Cat 6A

Rack Size

19 inch

Rack Units

1 U

Total Ports

24

Shielding

Shielded

Connectivity Features

Termination Compatibility

- Krone
- 110 Dual IDC

Key Performance Indicators

10 Gbps

Data Speed
