

Cathode-Ray Tube Television

This is a cathode-ray tube (CRT) television. It features a classic, boxy aesthetic, typical of older CRT models.

Product Overview

Classic CRT Display Solution

This cathode-ray tube television features a robust, boxy architecture with a distinctive silver-colored frame. Designed with integrated speakers, it provides a classic aesthetic suitable for retro-fit installations or specialized legacy environments. The front panel is equipped with tactile control buttons and clear indicator lights for intuitive manual operation.
