

Cathode Ray Tube Television

This is a cathode ray tube television with a classic design. It features a deep black screen, white bezel, and black plastic housing.

Product Overview

Classic CRT Television Display

This cathode ray tube (CRT) television offers a durable and reliable display solution with a classic aesthetic. Featuring a robust black plastic housing and a distinct white bezel, it is designed for environments requiring high-visibility, traditional screen technology. The unit is equipped with integrated front-mounted controls for straightforward manual operation.
