

CD-R 24x Recordable Compact Discs 700MB

CD-R discs provide a 700MB capacity for recording data. These compact discs have a 24x write speed and come in protective containers.

Product Overview

Professional Grade Recordable Media

These CD-R recordable compact discs offer reliable data storage for professional and personal archival needs. With a standard 700MB capacity and 80-minute audio duration, they are ideal for burning backups, music playlists, or data distribution. The 24x write speed ensures compatibility with a wide range of optical disc drives while maintaining data integrity.
